

Environmental Kitchen Cabinet Meeting Notes December 16, 2011

1. Devise an internship program, separate from SPYC, for the rest of the department and present it to CFM. They seem very willing to help the department with such a program. (Environmental & Natural Resource Education)(CFE; CFM)
2. Incorporate consideration of wetlands and buffer zones in New Madrid and other floodplain restoration. (MPA; TNC; MVC; CFE; Ozark Regional Land Trust)
3. Create a plan for protection of riparian and lacustrine buffer zones and decreased sedimentation of waterways (Parks 20/20; Soil and Water Conservation Planning; SEPs)(Ozarks Regional Land Trust; LOWA; TNC)
4. Secure funding for state parks (Parks 20/20)(MPA; MCEA; MVC)
5. Develop next generation of environmental professionals (Succession Planning; Enhancing Science and Technology)(MU)
6. Continue to work with the various Kitchen Cabinets and rally the Environmental Kitchen Cabinet around initiatives the department wants to advance (Enhancing Science and Technology; Public and Community Outreach and Involvement)(CFM)
7. Adequately address siting and permitting of Labadie and West Lake landfill (Our Missouri Waters; Green 21)(Sierra Club; CFE; MCEA)
8. Address the use of Missouri shale in hydrofracking and hydrofracking in Missouri (Green 21; Mineral Extraction)(TNC; MVC)
9. Support for Energy Efficiency Resource Standard and Prop C Initiative Petition, home weatherization funding and Show Me Green Schools (Energy Stakeholder Process)(CFE; Sierra Club; MCEA (USGBC))
10. Improve data analysis and maps with respect to wetland delineations, stream team data and watershed mapping (Public and Community Outreach and Involvement)(CFE; LOWA; Stream Teams)
11. Produce water quality and quantity plan and need to address multi-state water quality and quantity issues (Our Missouri Waters)(TNC; MVC; Audubon would like to assist; Ozarks Water Watch)
12. Promote green infrastructure (Table Rock Lake Water Quality; Missouri River Relief)
13. Dispel perception of overregulation (Technical & Compliance Assistance) (Ozark Water Watch)

14. Institute programs for preservation of agricultural land (Soil and Water Conservation Planning)(TNC)

15. Improve wastewater management, including in karst landscapes and septics (Our Missouri Waters)(Ozark Water Watch; LOWA; Table Rock Lake Water Quality)
